Brightline Telecom - Service Terms

SYNTHETIC DOCUMENT - generated for a hiring assignment. Fictional company; not real policy and not facts about the Telco dataset.

1. Billing

Invoices are issued monthly. Payment is due 15 days after the invoice date. A late fee of $5 applies to payments received more than 10 days after the due date.

Billing disputes must be raised within 60 days of the invoice date.

2. Cancellation and early termination

Customers must give 30 days written notice to cancel. Customers who cancel before the end of a fixed contract pay an early termination fee equal to the monthly fee in the table times the months remaining, up to the maximum. Month-to-month customers pay no fee.

Contract	Fee per remaining month	Maximum fee
Month-to-month	$0	$0
One year	$15	$150
Two year	$20	$300

3. Service levels

Monthly availability targets are 99.5 percent for Fiber optic plans and 99.0 percent for DSL.

For an outage longer than 4 hours, the customer receives a credit for each 24 hours of outage or part of 24 hours. One day of credit is 1/30 of the list price of the customer's internet plan, rounded to the nearest cent.

4. Equipment, refunds and records

Rented equipment must be returned within 14 days of cancellation. Equipment not returned in that time is charged at $100 per router.

Eligible overpayments are refunded within 30 days. Brightline keeps account and billing records for 24 months after an account closes.

Appendix A. Early termination examples

Fees are the monthly fee times the months remaining, capped at the maximum.

Early termination: one year contract, 1 months remaining

A customer on a one year contract cancels with 1 months remaining. The fee is 1 x $15 = $15, which is within the $150 maximum, so $15 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 2 months remaining

A customer on a one year contract cancels with 2 months remaining. The fee is 2 x $15 = $30, which is within the $150 maximum, so $30 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 3 months remaining

A customer on a one year contract cancels with 3 months remaining. The fee is 3 x $15 = $45, which is within the $150 maximum, so $45 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 4 months remaining

A customer on a one year contract cancels with 4 months remaining. The fee is 4 x $15 = $60, which is within the $150 maximum, so $60 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 6 months remaining

A customer on a one year contract cancels with 6 months remaining. The fee is 6 x $15 = $90, which is within the $150 maximum, so $90 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 8 months remaining

A customer on a one year contract cancels with 8 months remaining. The fee is 8 x $15 = $120, which is within the $150 maximum, so $120 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 10 months remaining

A customer on a one year contract cancels with 10 months remaining. The fee is 10 x $15 = $150, which is within the $150 maximum, so $150 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 11 months remaining

A customer on a one year contract cancels with 11 months remaining. The fee is 11 x $15 = $165, which is above the $150 maximum, so the fee is capped at $150. The customer must still give 30 days written notice and pay the final invoice.

Early termination: one year contract, 12 months remaining

A customer on a one year contract cancels with 12 months remaining. The fee is 12 x $15 = $180, which is above the $150 maximum, so the fee is capped at $150. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 1 months remaining

A customer on a two year contract cancels with 1 months remaining. The fee is 1 x $20 = $20, which is within the $300 maximum, so $20 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 3 months remaining

A customer on a two year contract cancels with 3 months remaining. The fee is 3 x $20 = $60, which is within the $300 maximum, so $60 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 5 months remaining

A customer on a two year contract cancels with 5 months remaining. The fee is 5 x $20 = $100, which is within the $300 maximum, so $100 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 7 months remaining

A customer on a two year contract cancels with 7 months remaining. The fee is 7 x $20 = $140, which is within the $300 maximum, so $140 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 9 months remaining

A customer on a two year contract cancels with 9 months remaining. The fee is 9 x $20 = $180, which is within the $300 maximum, so $180 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 10 months remaining

A customer on a two year contract cancels with 10 months remaining. The fee is 10 x $20 = $200, which is within the $300 maximum, so $200 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 12 months remaining

A customer on a two year contract cancels with 12 months remaining. The fee is 12 x $20 = $240, which is within the $300 maximum, so $240 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 15 months remaining

A customer on a two year contract cancels with 15 months remaining. The fee is 15 x $20 = $300, which is within the $300 maximum, so $300 is charged. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 18 months remaining

A customer on a two year contract cancels with 18 months remaining. The fee is 18 x $20 = $360, which is above the $300 maximum, so the fee is capped at $300. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 20 months remaining

A customer on a two year contract cancels with 20 months remaining. The fee is 20 x $20 = $400, which is above the $300 maximum, so the fee is capped at $300. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 22 months remaining

A customer on a two year contract cancels with 22 months remaining. The fee is 22 x $20 = $440, which is above the $300 maximum, so the fee is capped at $300. The customer must still give 30 days written notice and pay the final invoice.

Early termination: two year contract, 24 months remaining

A customer on a two year contract cancels with 24 months remaining. The fee is 24 x $20 = $480, which is above the $300 maximum, so the fee is capped at $300. The customer must still give 30 days written notice and pay the final invoice.

Appendix B. Late fee scenarios

Days are counted from the invoice date.

Late fee: payment received 10 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 10. The payment was on time, so no fee applies.

Late fee: payment received 15 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 15. The payment was on time, so no fee applies.

Late fee: payment received 16 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 16. The payment was 1 days after the due date. That is not more than 10 days late, so no late fee applies.

Late fee: payment received 20 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 20. The payment was 5 days after the due date. That is not more than 10 days late, so no late fee applies.

Late fee: payment received 24 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 24. The payment was 9 days after the due date. That is not more than 10 days late, so no late fee applies.

Late fee: payment received 25 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 25. The payment was 10 days after the due date. That is not more than 10 days late, so no late fee applies.

Late fee: payment received 26 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 26. The payment was 11 days after the due date, which is more than 10 days late, so the $5 late fee applies.

Late fee: payment received 30 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 30. The payment was 15 days after the due date, which is more than 10 days late, so the $5 late fee applies.

Late fee: payment received 35 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 35. The payment was 20 days after the due date, which is more than 10 days late, so the $5 late fee applies.

Late fee: payment received 40 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 40. The payment was 25 days after the due date, which is more than 10 days late, so the $5 late fee applies.

Late fee: payment received 45 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 45. The payment was 30 days after the due date, which is more than 10 days late, so the $5 late fee applies.

Late fee: payment received 60 days after the invoice date

An invoice is issued on day 0 and payment is due on day 15. Payment arrives on day 60. The payment was 45 days after the due date, which is more than 10 days late, so the $5 late fee applies.

Appendix C. Billing dispute window

The window is 60 days from the invoice date.

Billing dispute raised 5 days after the invoice date

A customer raises a billing dispute 5 days after the invoice date. Disputes must be raised within 60 days, so the dispute is accepted for review.

Billing dispute raised 30 days after the invoice date

A customer raises a billing dispute 30 days after the invoice date. Disputes must be raised within 60 days, so the dispute is accepted for review.

Billing dispute raised 59 days after the invoice date

A customer raises a billing dispute 59 days after the invoice date. Disputes must be raised within 60 days, so the dispute is accepted for review.

Billing dispute raised 60 days after the invoice date

A customer raises a billing dispute 60 days after the invoice date. Disputes must be raised within 60 days, so the dispute is accepted for review.

Billing dispute raised 61 days after the invoice date

A customer raises a billing dispute 61 days after the invoice date. Disputes must be raised within 60 days, so the dispute is too late and is declined.

Billing dispute raised 75 days after the invoice date

A customer raises a billing dispute 75 days after the invoice date. Disputes must be raised within 60 days, so the dispute is too late and is declined.

Billing dispute raised 90 days after the invoice date

A customer raises a billing dispute 90 days after the invoice date. Disputes must be raised within 60 days, so the dispute is too late and is declined.

Appendix D. Outage credit scenarios

Credit is per 24 hours of outage or part of 24 hours, for outages longer than 4 hours.

Outage credit: 1 hours on DSL

An outage lasting 1 hours affects a customer on DSL, list price $25. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 2 hours on DSL

An outage lasting 2 hours affects a customer on DSL, list price $25. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 3 hours on DSL

An outage lasting 3 hours affects a customer on DSL, list price $25. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 4 hours on DSL

An outage lasting 4 hours affects a customer on DSL, list price $25. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 5 hours on DSL

An outage lasting 5 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (5 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is $0.83 rounded to the nearest cent.

Outage credit: 6 hours on DSL

An outage lasting 6 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (6 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is $0.83 rounded to the nearest cent.

Outage credit: 8 hours on DSL

An outage lasting 8 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (8 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is $0.83 rounded to the nearest cent.

Outage credit: 12 hours on DSL

An outage lasting 12 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (12 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is

$0.83 rounded to the nearest cent.

Outage credit: 18 hours on DSL

An outage lasting 18 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (18 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is $0.83 rounded to the nearest cent.

Outage credit: 23 hours on DSL

An outage lasting 23 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (23 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is $0.83 rounded to the nearest cent.

Outage credit: 24 hours on DSL

An outage lasting 24 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 1 day (24 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $25, which is $0.83 rounded to the nearest cent.

Outage credit: 25 hours on DSL

An outage lasting 25 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 2 days (25 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $25, which is $1.67 rounded to the nearest cent.

Outage credit: 30 hours on DSL

An outage lasting 30 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 2 days (30 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $25, which is $1.67 rounded to the nearest cent.

Outage credit: 36 hours on DSL

An outage lasting 36 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 2 days (36 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $25, which is $1.67 rounded to the nearest cent.

Outage credit: 47 hours on DSL

An outage lasting 47 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 2 days (47 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $25, which is $1.67 rounded to the nearest cent.

Outage credit: 48 hours on DSL

An outage lasting 48 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 2 days (48 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $25, which is $1.67 rounded to the nearest cent.

Outage credit: 49 hours on DSL

An outage lasting 49 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 3 days (49 hours is 3 periods of 24 hours or part of one). The credit is 3 x 1/30 of $25, which is $2.50 rounded to the nearest cent.

Outage credit: 72 hours on DSL

An outage lasting 72 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 3 days (72 hours is 3 periods of 24 hours or part of one). The credit is 3 x 1/30 of $25, which is

$2.50 rounded to the nearest cent.

Outage credit: 96 hours on DSL

An outage lasting 96 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 4 days (96 hours is 4 periods of 24 hours or part of one). The credit is 4 x 1/30 of $25, which is $3.33 rounded to the nearest cent.

Outage credit: 120 hours on DSL

An outage lasting 120 hours affects a customer on DSL, list price $25. The outage is longer than 4 hours, so a credit applies for 5 days (120 hours is 5 periods of 24 hours or part of one). The credit is 5 x 1/30 of $25, which is $4.17 rounded to the nearest cent.

Outage credit: 1 hours on Fiber optic

An outage lasting 1 hours affects a customer on Fiber optic, list price $50. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 2 hours on Fiber optic

An outage lasting 2 hours affects a customer on Fiber optic, list price $50. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 3 hours on Fiber optic

An outage lasting 3 hours affects a customer on Fiber optic, list price $50. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 4 hours on Fiber optic

An outage lasting 4 hours affects a customer on Fiber optic, list price $50. The outage is not longer than 4 hours, so no credit applies.

Outage credit: 5 hours on Fiber optic

An outage lasting 5 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (5 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 6 hours on Fiber optic

An outage lasting 6 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (6 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 8 hours on Fiber optic

An outage lasting 8 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (8 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 12 hours on Fiber optic

An outage lasting 12 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (12 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 18 hours on Fiber optic

An outage lasting 18 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (18 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 23 hours on Fiber optic

An outage lasting 23 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (23 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 24 hours on Fiber optic

An outage lasting 24 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 1 day (24 hours is 1 period of 24 hours or part of one). The credit is 1 x 1/30 of $50, which is $1.67 rounded to the nearest cent.

Outage credit: 25 hours on Fiber optic

An outage lasting 25 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 2 days (25 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $50, which is $3.33 rounded to the nearest cent.

Outage credit: 30 hours on Fiber optic

An outage lasting 30 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 2 days (30 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $50, which is $3.33 rounded to the nearest cent.

Outage credit: 36 hours on Fiber optic

An outage lasting 36 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 2 days (36 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $50, which is $3.33 rounded to the nearest cent.

Outage credit: 47 hours on Fiber optic

An outage lasting 47 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 2 days (47 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $50, which is $3.33 rounded to the nearest cent.

Outage credit: 48 hours on Fiber optic

An outage lasting 48 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 2 days (48 hours is 2 periods of 24 hours or part of one). The credit is 2 x 1/30 of $50, which is $3.33 rounded to the nearest cent.

Outage credit: 49 hours on Fiber optic

An outage lasting 49 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 3 days (49 hours is 3 periods of 24 hours or part of one). The credit is 3 x 1/30 of $50, which is $5 rounded to the nearest cent.

Outage credit: 72 hours on Fiber optic

An outage lasting 72 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 3 days (72 hours is 3 periods of 24 hours or part of one). The credit is 3 x 1/30 of $50, which is $5 rounded to the nearest cent.

Outage credit: 96 hours on Fiber optic

An outage lasting 96 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 4 days (96 hours is 4 periods of 24 hours or part of one). The credit is 4 x 1/30 of $50, which is $6.67 rounded to the nearest cent.

Outage credit: 120 hours on Fiber optic

An outage lasting 120 hours affects a customer on Fiber optic, list price $50. The outage is longer than 4 hours, so a credit applies for 5 days (120 hours is 5 periods of 24 hours or part of one). The credit is 5 x 1/30 of $50, which is $8.33 rounded to the nearest cent.

Appendix E. Equipment return scenarios

Rented routers must be returned within 14 days of cancellation.

Equipment return: 1 router, returned on day 14

A customer who rents 1 router cancels service and returns them 14 days after cancellation. The equipment was returned within 14 days, so no charge applies.

Equipment return: 1 router, returned on day 15

A customer who rents 1 router cancels service and returns them 15 days after cancellation. The equipment was returned late, so 1 x $100 = $100 is charged.

Equipment return: 1 router, returned on day 30

A customer who rents 1 router cancels service and returns them 30 days after cancellation. The equipment was returned late, so 1 x $100 = $100 is charged.

Equipment return: 1 router, not returned

A customer who rents 1 router cancels service and never returns them. The equipment was returned late, so 1 x $100 = $100 is charged.

Equipment return: 2 routers, returned on day 14

A customer who rents 2 routers cancels service and returns them 14 days after cancellation. The equipment was returned within 14 days, so no charge applies.

Equipment return: 2 routers, returned on day 15

A customer who rents 2 routers cancels service and returns them 15 days after cancellation. The equipment was returned late, so 2 x $100 = $200 is charged.

Equipment return: 2 routers, returned on day 30

A customer who rents 2 routers cancels service and returns them 30 days after cancellation. The equipment was returned late, so 2 x $100 = $200 is charged.

Equipment return: 2 routers, not returned

A customer who rents 2 routers cancels service and never returns them. The equipment was returned late, so 2 x $100 = $200 is charged.

Equipment return: 3 routers, returned on day 14

A customer who rents 3 routers cancels service and returns them 14 days after cancellation. The equipment was returned within 14 days, so no charge applies.

Equipment return: 3 routers, returned on day 15

A customer who rents 3 routers cancels service and returns them 15 days after cancellation. The equipment was returned late, so 3 x $100 = $300 is charged.

Equipment return: 3 routers, returned on day 30

A customer who rents 3 routers cancels service and returns them 30 days after cancellation. The equipment was returned late, so 3 x $100 = $300 is charged.

Equipment return: 3 routers, not returned

A customer who rents 3 routers cancels service and never returns them. The equipment was returned late, so 3 x $100 = $300 is charged.

Appendix F. Notice period dates

Thirty days of written notice are required to cancel.

Notice period: notice given on January 3

A customer gives written notice to cancel on January 3. Thirty days of notice are required, so service can end on February 2 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on February 3

A customer gives written notice to cancel on February 3. Thirty days of notice are required, so service can end on March 5 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on March 3

A customer gives written notice to cancel on March 3. Thirty days of notice are required, so service can end on April 2 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on April 3

A customer gives written notice to cancel on April 3. Thirty days of notice are required, so service can end on May 3 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on May 3

A customer gives written notice to cancel on May 3. Thirty days of notice are required, so service can end on June 2 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on June 3

A customer gives written notice to cancel on June 3. Thirty days of notice are required, so service can end on July 3 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on July 3

A customer gives written notice to cancel on July 3. Thirty days of notice are required, so service can end on August 2 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on August 3

A customer gives written notice to cancel on August 3. Thirty days of notice are required, so service can end on September 2 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on September 3

A customer gives written notice to cancel on September 3. Thirty days of notice are required, so service can end on October 3 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on October 3

A customer gives written notice to cancel on October 3. Thirty days of notice are required, so service can end on November 2 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on November 3

A customer gives written notice to cancel on November 3. Thirty days of notice are required, so service can end on December 3 at the earliest. A customer who wants a later end date chooses it and pays until then.

Notice period: notice given on December 3

A customer gives written notice to cancel on December 3. Thirty days of notice are required, so service can end on January 2 at the earliest. A customer who wants a later end date chooses it and pays until then.
